

## Wireless Internet Access

Library wifi is available 24/7 at Scappoose Public Library. Our coverage area is approximately the library grounds and Heritage Park. All users are expected to use the library's wireless access to the Internet in a legal and responsible manner, consistent with the policies stated above. Users should not violate federal, Oregon, or local laws, including the transmission or receiving of child pornography or harmful material, fraud, or illegally downloading copyrighted material.

## Wifi Connections Are Not Secure

As with most public wireless "hot spots," the library's wireless connection is not secure. A password is required to access the library wifi. The current password is available in the library or posted on the library building.

Any information being sent or received could potentially be intercepted by another wireless user. Cautious and informed wireless users should not transmit their credit card information, passwords and any other sensitive personal information while using any wireless "hot spot"
